# Production and Quality assurance process

EcoTone cartridges are **100 % remanufactured in Canada since 2000** by our qualified team of experts. We use mainly North American raw materials and the cartridges are manufactured under stringent quality control guidelines to ensure the highest level of quality and reliability.

1

## Raw Material Inspection

All cartridges are completely disassembled and sorted by material type. We inspect all materials, drums, blades, etc.

2

## Recycling

Cartridges are disassembled to component level and we recycle those that we will not utilise including all used packaging to help protect our environment.

3

## Cleaning

We split and clean each core with a high-pressure air system to remove residual toner.

4

## Sealing

We replace all seals with an OEM-type seal.

5

## Filling

All cartridges are precisely filled with high-quality toner to assure consistency and maximum page yield. In fact, it equals or exceeds the yield of the OEM specifications.

6

## Assembling

They are made from "virgin" cores only. Each cartridge utilizes brand new components to give an equivalent or better result than OEM cartridges.

7

## Testing and Quality Control

We use STMC\* testing protocols to guarantee the product quality and performance with up to 20 control points. All cartridges go through a rigorous testing process to minimize defective rates. All cartridges are installed in a running printer, and up to 200 print test pages are inspected.

*\*STMC – (Standardized Test Methods Committee)*

STMC designation tells the consumer that the cartridge purchased was manufactured in accordance with specific quality and performance standards.

*\*CGSB – Certification # CGSB53.148.2011*

## Our EcoTone array

- A superior quality product
- ECOresponsible
- Rebuilt from the highest quality components
- Always made from OEM empty cartridges
- Raw material mainly produced in North America
- Up to 20 control points
- Up to 200 print test pages per cartridge manufactured
- STMC and CGSB certified

## Available for the following manufacturers:

Brother	Lexmark	HP
Canon	Samsung	IBM
Dell	Xerox	Konica Minolta

## Our Warranty

All EcoTone cartridges come with a free 3 years replacement warranty against malfunction or manufacturer defects.

## Our Commitment

The manufacturer guarantees that under normal use, an EcoTone cartridge or drum will not damage or break the devices that use them. If a cartridge causes damage to a device, despite our strict quality assurance, we will assume the cost or repairs upon receipt of satisfactory evidence.

EcoTone brand is certified by the Canadian General Standards Board
